

GIRL KILLED IN ATTEMPT TO END LIFE

MARTINEZ, May 18.—Miss Marie Alvarez, 12, adopted daughter of Mrs. Elizabeth Savage, local hotel proprietor, was saved from death in the bay here this morning after she either fell or jumped from the stern of the ferry steamer City of Martinez.

The girl was rescued by the pilot of the tug Rover after she had gone under the surface twice. Hyperical when she was removed from the water, Miss Alvarez, in response to a question from Mate M. A. Mattson of the ferry steamer, responded "I'll never tell," according to the mate's report.

Declaring that the girl's plunge into the bay was accidental, Miss Savage asserted that Miss Alvarez left the hotel early this morning to seek work at a question from Mate M. A. Mattson of the ferry steamer, responded "I'll never tell," according to the mate's report.

The girl was rescued by the pilot of the tug Rover after she had gone under the surface twice. Hyperical when she was removed from the water, Miss Alvarez, in response to a question from Mate M. A. Mattson of the ferry steamer, responded "I'll never tell," according to the mate's report.

The youth, who makes daily trips across the bay, reported that he saw the girl at the ferry wharf early yesterday morning. The ferry was about 100 feet from the pier when the girl plunged into the water. Pilot M. Nones saw her body in the water, signalled Captain A. P. Jensen to halt the vessel and the lifeboat was put over in command of Mate Mattson. The tug Rover, nearby, reached the girl first and she was taken to the ferry wharf.

Dr. Sweetser declared the girl suffered no ill effects from her plunge but was hysterical. Miss Alvarez, Mrs. Savage declared, left that morning without securing breakfast. She attributed the plunge to a fall due to dizziness.

Interesting New Books Are Received At Library Here

The following books have been received at the local library:

"Financial Advice to a Young Man."—Rukoyser. This is not a book on investments as the title might lead one to believe. The author calls it a program for getting along in the world and discusses in detail the elements of present-day business success. The last chapter gives sound advice on investments or "prudent use of the family surplus."

"The Cannoneers Have Hairy Ears."—Casey. A book of intense interest to those who would know war as it really is. Here is no attempt to make war glorious nor to clothe it in humorous happenings. The book is an actual diary which an artillery officer kept for his wife from August 22 to November 11, 1918.

"The Bible Unlocked"—Battenhouse. A study of the history, literature and religious teachings of the Bible written with the aim of furnishing the reader with a constructive historical background for biblical study; or offering encouragement and guidance toward an attempted analysis and appreciation of the greatest of its writings; and of awakening a desire and laying a foundation for a further acquaintance with the world's best known and best loved book.

"May Alcott: A Memoir"—Tichenor. May Alcott was the Amy of Lewis, Willa Cather, Edith Wharton and Vachel Lindsay.

tells of the Alcotts' home life; of May's travels abroad with Louisa, of her life as an art student and her marriage and later life in France.

"New York Nights."—Graham. Stephen Graham, an Englishman, writes of his impressions of the night life of New York.

"The Children's Reading."—Olcott. This is a revised edition of one of the standard works on the influence of good books and of the effects of bad ones. Lists of books are given. Will interest all parents who give any thought to what their children read.

"The Beautiful Mrs. Graham."—Graham. In this account of the Cathcart family of Scotland, as told chiefly through their personal letters, the interest is in the picture given of the social life of the times rather than in the career of any one member of the family. The book covers a period of twenty-four years, from 1768 to 1792 and some of the letters were written from America in 1776 and 1777 by two of the Cathcart boys who were on active service with the British army.

"Contemporary American Authors."—Squire, Editor. There is a tradition that English reviewers are unjust to American writers. Mr. Squire has collected here eight critical essays on American writers written by the critics of "The London Mercury." Among the authors are Dreiser, Sinclair Lewis, Willa Cather, Edith Wharton and Vachel Lindsay.

clear of the car at the impact. When he recovered consciousness, the occupants of the hit-run car, believed to have been two men, were speeding up the highway on foot. Constable M. G. Molton, San Pablo, took the machine to a San Pablo garage. The Jenkins car was a total wreck.

The injured were rushed to the Cottage hospital in Richmond by Dr. Shade, Oakland, and Walter Kelly, Richmond. They were treated by Dr. James Felman and Dr. S. H. Fraser of this city.

Police last night notified authorities of the bay district to keep a sharp lookout for the occupants of the Buick car. A close watch was being kept at hospitals in the belief they might apply for treatment of their injuries.

SCHOOL NURSE SAYS

all girls should know this

TALKING TO A ROOMFUL OF HIGH school girls on personal hygiene, an experienced district nurse said:

"One of the basic rules of health for girls is to keep the system functioning naturally at all times. Normal exercise and diet habits should be encouraged. But when necessary there is no harm in taking a little medicine."

"And can't disturb the normal functions of any organ of the body. Particularly with girls, there are times when a little medicine should be taken. Take a spoonful every night for a few days. It's a thoroughly safe and harmless method. It won't cause distress or gas pains or griping."

"Nujol is different from any other substance. It contains no drugs or medicine. It can be taken safely no matter how you are feeling because it is so pure and harmless and works so easily. Every woman should keep a bottle on hand. Every drugist has this remarkable substance. Get the genuine."

WAR HORRORS ARE DEPICTED IN LONE EAGLE

The picture depicts just enough of the horrors of war as seen and experienced from the air to demonstrate its futility. It does not show an endless procession of soldiers marching to the front nor does it show mud-encrusted doughboys hysterically waving flags as they go over the top. In other words, it is a true version of the war. Ask an ex-service man, if my meaning is not clear.

McLarnin Scrap Again Postponed

NEW YORK, May 18.—Rain caused postponement for the second time today of the scheduled lightweight championship bout between Sammy Mandell and Jimmy McLarnin. An attempt will be made to put on the fight at the Polo grounds Saturday night.

The two postponements have had little effect on the betting. Mandell remaining a 7 to 5 choice with plenty of McLarnin money available.

Under the rules of the New York state athletic commission, the two fighters will be required to weigh in again Saturday at 2 p. m. had the fight been held Friday night, they would not have had to weigh in a second time and consequently both would have been well over the 135 pound limit.

MOCK ATTACK BY AIR WILL TEST DEFENSE

(By Universal Service)

LONDON, May 18.—London is to be attacked from the air in August. An attempt is to be made to devastate the city by squadrons of aircraft, night-bombers and fighters.

It is to be a mock attack to test the efficiency of the Home Defence organizations, such as was carried out last year, but on a large scale.

Fierce battles between enemy bombers and attacking fighters are to be staged in the air, a mile above the metropolis, and batteries of searchlights, with their attendant anti-aircraft gun crews, will attempt to "spot" and "destroy" the invaders.

Last year's air "war" taught many important tactical lessons.

One thing apparent was that enemy bombers found it easier to penetrate the defences of London than had been thought possible before the tests were made.

This year, as a consequence, the manoeuvres are to be on a far larger scale. Aircraft from all the defence crews round London will participate and even auxiliary squadrons will be called into service.

War-time conditions will be imitated with pilots and aircrafts in constant readiness for emergency calls.

All leaves will be stopped and a battle unparalleled so far as the number of machines employed is concerned, will be waged.
